

Shell Canada Limited Material Safety Data Sheet

Effective Date: 2008-10-30 Supersedes: 2005-11-15

1. PRODUCT AND COMPANY IDENTIFICATION

PRODUCT: DIALA* A X

PRODUCT USE: Electrical Insulating Oil

PRODUCT CODE: 407-651

SUPPLIER TELEPHONE NUMBERS

Shell Canada Limited (SCL)Shell Emergency Number1-800-661-7378P.O. Box 100, Station MCANUTEC 24 HOUR EMERGENCY NUMBER1-613-996-6666400-4th Ave. S.W.For general information:1-800-661-1600Calgary, AB Canadawww.shell.ca

T2P 2H5

This MSDS was prepared by the Toxicology and Product Stewardship Section of Shell Canada Limited.
*An asterisk in the product name designates a trade-mark(s) of Shell Canada Limited, used under license by Shell Canada Products.

2. COMPOSITION / INFORMATION ON INGREDIENTS

THIS PRODUCT IS NOT A WHMIS CONTROLLED SUBSTANCE.

See Section 8 for Occupational Exposure Guidelines.

3. HAZARDS IDENTIFICATION

Physical Description: Liquid Lightly Coloured Slight Hydrocarbon Odour

Routes of Exposure: Exposure will most likely occur through skin contact or from inhalation of mechanically

or thermally generated oil mists.

Hazards:

This product is not expected to be irritating and has a low level of toxicity under

normal use.

Ingestion may result in vomiting. Avoid aspiration of vomitus into lungs as small

quantities may result in aspiration pneumonitis.

Inhalation of oil mist or vapours from hot oil may cause irritation of the upper

respiratory tract.

For further information on health effects, see Section 11.

4. FIRST AID MEASURES

Eyes: Flush eyes with water for at least 15 minutes while holding eyelids open. If irritation

occurs and persists, obtain medical attention.

Skin: Wipe excess from skin. Wash contaminated skin with mild soap and water for at least

15 minutes. If irritation occurs and persists, obtain medical attention. If material is injected under the skin, get medical attention promptly to prevent serious damage; do

not wait for symptoms to develop.

Ingestion: Not normally required; obtain medical attention if large amounts have been ingested. Do

DIALA* A X 407-651

Revision Number: 6

not induce vomiting. If vomiting occurs spontaneously, keep head below hips to prevent

aspiration of liquid into the lungs.

Inhalation: Remove victim from further exposure. Additional first aid treatment is not ordinarily

required.

Notes to Physician: In general, lubricating oils have low oral toxicity. High pressure injection under the skin

may have serious consequences and may require urgent treatment.

5. FIRE FIGHTING MEASURES

Extinguishing Media: Dry Chemical

Carbon Dioxide

Foam Water Fog

Firefighting Instructions: Caution, spilled material is slippery. Material will not burn unless preheated.

Product will float and can be reignited on surface of water. Do not use a direct stream of water as it may spread fire. Use water to cool fire exposed containers. Water may be used to flush spills away from exposure. Do not enter confined fire space without adequate protective clothing and an approved positive pressure

self-contained breathing apparatus.

Hazardous Combustion

carbon monoxide, carbon dioxide and dense smoke are produced on

Products:

combustion.

6. ACCIDENTAL RELEASE MEASURES

Isolate hazard area and restrict access. Avoid prolonged or repeated contact with skin. Wear appropriate breathing apparatus (if applicable) and protective clothing. Stop leak only if safe to do so. Spilled material is slippery. Dike and contain land spills; contain spills to water by booming. For large spills remove by mechanical means and place in containers. Adsorb residue or small spills with adsorbent material and remove to non-leaking containers for disposal. Notify appropriate environmental agency(ies). After area has been cleaned up to the satisfaction of regulatory authorities, flush area with water to remove trace residue. Dispose of recovered material as noted under Disposal Considerations.

7. HANDLING AND STORAGE

Handling: Avoid excessive heat, formation of oil mist, breathing of vapours and mist of hot oil and

prolonged or repeated contact with skin. Launder contaminated clothing prior to reuse. Wash with soap and water prior to eating, drinking, smoking, applying cosmetics or using toilet facilities. Use

good personal hygiene.

Storage: Store in a cool, dry, well ventilated area, away from heat and ignition sources.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

The following information, while appropriate for this product, is general in nature. The selection of personal protective equipment will vary depending on the conditions of use.

OCCUPATIONAL EXPOSURE LIMITS (Current ACGIH TLV/TWA unless otherwise noted):

North American exposure limits have not been established for the product. Consult local and provincial authorities for acceptable values.

Oil mist (mineral): 5 mg/m3 (STEL: 10 mg/m3)

Mechanical
Not normally required. Local ventilation is recommended if oil mist is present or if exposure limit is exceeded. Make up air should always be supplied to balance air exhausted (either

DIALA* A X 407-651
Revision Number: 6

generally or locally).

PERSONAL PROTECTIVE EQUIPMENT:

Eye Protection: No special eye protection is routinely necessary. Wear safety glasses as appropriate. **Skin Protection:** Not normally needed. Chemically-resistant gloves should be worn for frequent or

prolonged contact with this product.

RespiratoryNot normally required under intended conditions of use. If airborne concentration is high **Protection:**(e.g. when product is heated), use a NIOSH-approved chemical cartridge respirator with

organic vapour cartridges in combination with a P95 particulate filter.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State:	Liquid	Odour:	Slight Hydrocarbon Odour
Appearance:	Lightly Coloured	Odour Threshold:	Not available

10. STABILITY AND REACTIVITY

Chemically Stable:YesHazardous Polymerization:NoSensitive to MechanicalNoSensitive to Static Discharge:No

Impact:

Hazardous Decomposition Thermal decomposition products are highly dependent on combustion

Products: conditions.

Incompatible Materials: Avoid strong oxidizing agents.

Conditions of Reactivity: Avoid excessive heat, formation of vapours or mists.

11. TOXICOLOGICAL INFORMATION

Routes of Exposure: Exposure will most likely occur through skin contact or from inhalation of mechanically

or thermally generated oil mists.

Irritancy: This product is not a primary skin irritant after exposure of short duration, is not a skin

sensitizer and is not irritating to the eyes.

Acute Toxicity: This product is not expected to be irritating and has a low level of toxicity under

normal use.

Chronic Effects: Long term intensive exposure to oil mist may cause benign lung fibrosis. Prolonged or

repeated contact may cause various forms of dermatitis including folliculitis and oil

acne.

12. ECOLOGICAL INFORMATION

DIALA* A X 407-651

Revision Number: 6

Environmental Effects: The immediate effect of a release is the physical impairment of the environment from

the coating of surfaces, resulting in the disruption of oxygen, water and light to flora and fauna. Do not allow product or runoff from fire control to enter storm or sanitary sewers, lakes, rivers, streams, or public waterways. Block off drains and ditches. Provincial regulations require and federal regulations may require that environmental and/or other agencies be notified of a spill incident. Spill area must be cleaned and

restored to original condition or to the satisfaction of authorities.

Biodegradability: Not readily biodegradable.

13. DISPOSAL CONSIDERATIONS

Waste management priorities (depending on volumes and concentration of waste) are: 1. recycle (reprocess), 2. energy recovery 3. incineration, 4. disposal at a licenced waste disposal facility. Do not attempt to combust waste on-site.

14. TRANSPORT INFORMATION

Canadian Road and Rail Shipping Classification:

This product is not regulated under the Canadian Transportation of Dangerous Goods Regulations for transport by road and rail.

15. REGULATORY INFORMATION

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the CPR.

THIS PRODUCT IS NOT A WHMIS CONTROLLED SUBSTANCE.

DSL/NDSL Status:This product, or all components, are listed on the Domestic Substances List, as

required under the Canadian Environmental Protection Act. This product and/or

all components are listed on the U.S. EPA TSCA Inventory.

Other Regulatory Status: The regulatory information is not intended to be comprehensive. Other

regulations may apply to this material.

16. OTHER INFORMATION

Revisions: This MSDS has been reviewed and updated. Changes have been made to: Section 3

Section 4 Section 6 Section 8 Section 11 Section 12 Section 13 Section 15 Section 16
